# Practice Chipping & Putting Green

The chipping green is open for a limited time before we re-close for the winter months. We will be adding artificial hitting areas, steps in bunkers, and generally finishing off. We will also be posting a list of rules which must be adhered to when using the facility.

Next time you see him, I would like you all to congratulate Chris Jones our green keeper for his efforts in building this facility. It wasn't seen as a priority and therefore received little funding. Chris has constructed this area in his own time (with help from Duncan ) for the benefit of us all and I for one think he has produced a fantastic practice area. Thanks Chris.

Please adhere to the following advice when using the facility, your cooperation will mean the facility will be open for longer periods and more importantly the playing surfaces will continue to improve.

1. Where possible try not to take a divot, a chip and run shot does not require a downward hit! More of a putting stroke action...
2. Do not chip from the green surface.
3. Use a tube or pick your balls up, do not hit them off the green with a club.
4. Do not play toward another user unless you can be certain that your ball will not reach them.
5. DIVOTS....See Below:

I have copied this from the internet, it obviously references a driving range not a chipping area but it clearly shows what we would like you to achieve with your divots and I think demonstrates the impact of sporadic hitting and the damage to a large area rather than a concentrated strip. When chipping I would hope your divots do not resemble the above!!!! If they do?? Andrew is available for lessons on 01525 402269.

I am going to be policing this area at every opportunity, please adhere to the above.

More news next week, Rob
